

Canadian Science and Engineering HALL OF FAME

The remarkable accomplishments and great contributions of Canadian scientists, engineers, and innovators have inspired this exhibition honouring their achievements and sharing their stories.

**Meet forty-eight
leaders who
helped shape
Canada —
and the world.**

- inspirational ecologist Pierre Dansereau
- groundbreaking aeronautical engineer Elizabeth “Elsie” MacGill
- John “Jack” A. Hopps, builder of the world’s first portable pacemaker
- Willard S. Boyle, whose work is integral to virtually every camcorder, digital camera, and telescope in use today
- Gerald Heffernan, who helped reshape the steel industry around the world

Compelling stories of curiosity, challenge, problem-solving, and discovery by Canadian scientists, engineers, medical researchers, and inventors provide inspiration and insight for youth and adults alike. The exhibition panels are updated after each induction to the Canadian Science and Engineering Hall of Fame.

Canadian Science and Engineering HALL OF FAME

Target Audience

- Adults
- Students in Grade 4 and up

Languages

All elements of the exhibition are presented in a bilingual format

Dates Available

February 2009 to December 2014

Furniture and Hardware

- 6 wood benches
- 10 integrated electrical boxes, including power bridging to connect each unit
- 32 light fixtures
- 1 tool box

Support Material

- installation manual
- exhibition condition report
- Web exhibition
- www.sciencetech.technomuses.ca/english/about/hallfame/u_main_e.cfm
- Web-based virtual program for students in Grades 4 and up
- five study modules and worksheets to download and reproduce, found at www.sciencetech.technomuses.ca/english/schoolzone/virtual_hall_of_fame.cfm#

Space Requirement

85 m² to 110 m² (900 ft² to 1,200 ft²)

Exhibition Components

- 1 bilingual introduction unit
- 8 bilingual portrait gallery units, each featuring up to 6 photographs

Audiovisual Components

- 1 audiovisual module
 - 2 computers
 - 2 touch screens
 - 4 headsets
- 1 module featuring 3 videos
- 105-cm (42-in.) plasma screen
 - 2 integrated speakers
 - 3 videos

Communication and Transportation
Health and Medicine
Experimentation and Leadership

Conservation Requirements

Exhibition space must meet temperature and environmental requirements.

Insurance

Borrower must provide an insurance certificate.

Shipping

- 8 crates
- total weight: 1840 kg (4,060 lb.)

Fees

- \$800 per 1 month period
- Transportation
- GST applicable to both loan and transportation fees
