

Travel Activity Kit - 100 Years of Flight

February 23, 2009 marked the 100th anniversary of the first powered flight in Canada. During the last century, this form of transportation contributed greatly to the development and shaping of Canada into the country we know today.

Join us in helping Kindergarten and Grade 1 children discover the wonder of flight, while developing their literacy skills, through reading aviation stories and other activities that will introduce them to an important part of Canadian history. This kit designed for teachers and educators includes: story books, aviation stamps and reproducible activities.

Components

- Books
 - The Glorious Flight, across the channel with Louis Blériot
