

Summer Camps 2012

**CANADA
SCIENCE
AND
TECHNOLOGY
MUSEUM**

Register online only
at sciencetech.technomuses.ca
starting at 10 a.m. on Tuesday, February 21

6 to 8 year olds

Junior Astronomer – NEW

Become an astronomy whiz kid by building your own telescope and using it to practice stargazing in the inflatable planetarium. Expose the mysteries of our Sun, our Solar System and extraterrestrial life by creating and experimenting with fun astronomy.

Adventures in Science

Uncover the mysteries of science with a series of dazzling experiments and activities. Our team of enthusiastic counsellors will lead young scientists in activities involving chemistry, light-sensitive paper, “bubble-ology,” sound effects, and more!

Girls only July 16 to 20

Gadgets and Gizmos

Come and explore the world of unusual objects, from your favourite toys to trains, drains, and automobiles. Create gadgets that use wind and water power, make some funny putty, and explore sound and light-energy gadgets.

9 to 12 year olds

Ultimate Builders – NEW

Let your creativity run wild by imagining, designing and building. Find out what makes or breaks cars, towers and bridges. Explore different forms of energy by inventing your very own wacky widget.

Girls only August 20 to 24

Adventures in Robotics

What are animatronics and artificial intelligence? Can robots ever replace humans? Work in teams to create and build robotic components. Build your own robot to take home, and talk with Pixel, the Museum’s friendly robot.

Dates

July 9 to 13
July 23 to 27
August 7 to 10*
August 20 to 24

July 16 to 20
